

INFORMATION

THE JAPANESE CANCER ASSOCIATION

68th Annual Meeting of the Japanese Cancer Association

Exciting Science toward Cancer Control

October 1-3, 2009
at Pacifico Yokohama, JAPAN

Many programs, including
"International Sessions", for English speakers
Visit our web site at
<http://accessbrain.co.jp/jca2009/index.html>

Cancer Science Young Scientist Awards

- Only first/corresponding authors of articles published in Cancer Science in the specified period are eligible.
- Open to all authors published in the Journal from the Asian area (excluding Japan, Australia and New Zealand).
- Authors must be under the age of 35 at the time of manuscript submission, and currently employed by an institution or university. Students from any institution or university are strongly encouraged to enter.
- The following subject categories are covered: carcinogenesis, tumor biology and pathology, molecular biology and genetics, epidemiology and prevention, immunology and virology, experimental therapeutics and clinical medicine.
- Submissions can be made online at <http://mc.manuscriptcentral.com/cas>.

8th AACR/JCA Conference

*Cancer genomics, epigenomics and
the development of novel therapeutics*

February 5-9, 2010
at the Hilton Waikoloa Village,
Waikoloa, Hawaii

Conference Co-Chairperson:
Peter Jones & Yusuke Nakamura

1. Tumor Biomarker and Diagnostics
2. Pharmacogenomics
3. DDS for Cancer Therapy (including nanotechnology)
4. Stem Cells and Cancer
5. Cancer Genomics
6. Epidemiology and Cancer Prevention
7. Cancer Epigenomics
8. Non-coding RNAs in Cancer
- 9,10. Tumor Microenvironment (2 sessions)
(including immunology, tumor-stroma interaction)
- 11,12. Novel Therapeutics (2 sessions) (including signaling)
